DESIGNED FOR THE JOURNEY

INSPIRATION TAJ FIRE COLLECTION FALL 2014

SATYA welcomes Fall with a jewelry collection inspired by the majesty of the season. Taj, a Persian word meaning 'crown', infuses the collection with regal associations and a sense of restraint, intensity and dignity found within each design.

The transition into Fall, from the Indian Summer of late August, is filled with a powerful energy as well as a sense of renewed mental and spiritual force. The Taj Collection expresses this through an invigorating mix of metals, recalling the warm and cool days of the season, and through a focus on inspired designs adorned with intensely colored stones of mainly regal reds.

Motifs found throughout the Taj Collection seduce the imagination. They suggest a falling autumnal leaf or a candle's burning flame. They also recall the patterned beauty of Persian decorative arts or a crown jewel of another era. They declare the style of the Taj Collection as one that is both ancient and modern, inspired by the natural world and by a yearning for a higher power.
