FOOTWEAR

FALL TOUR  
2014

## MACBETH

Macbeth Footwear was founded in 2002 in Southern California with an irreverent attitude, creating a collection of modern classics inspired by our authentic connection to musicians, artists, and athletes.

## VEGAN PRODUCT

Cruelty free products are a big part of the Macbeth line - as a matter of fact, our very first shoe was vegan and that shoe is still in the line today! Everywhere you see the Macbeth Vegan Products logo you can rest assured that absolutely no animals were harmed in the manufacturing process.
